AUDITOR'S REVIEW REPORT

TO: THE SHAREHOLDERS OF PTT PUBLIC COMPANY LIMITED

The Office of the Auditor General of Thailand has reviewed the accompanying consolidated and separate balance sheets of PTT Public Company Limited and its subsidiaries and of PTT Public Company Limited as at June 30, 2008, the related consolidated and separate statements of income for the three-month and six-month periods ended June 30, 2008 and 2007, changes in shareholders' equity and cash flows for the six-month periods ended June 30, 2008 and 2007 of PTT Public Company Limited and its subsidiaries and of PTT Public Company Limited, respectively. These financial statements are the responsibility of the Company's management as to their correctness and completeness of the presentation. The responsibility of the Office of the Auditor General of Thailand is to issue a report on these financial statements based on the reviews.

The Office of the Auditor General of Thailand conducted the reviews in accordance with the generally accepted auditing standards applicable to review engagements. Those standards require that the Office of the Auditor General of Thailand plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of the Company's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit in accordance with generally accepted auditing standards, accordingly, the Office of the Auditor General of Thailand does not express an audit opinion.

Based on the reviews, nothing has come to attention that causes the Office of the Auditor General of Thailand to believe that the consolidated and separate financial statements are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

The Office of the Auditor General of Thailand previously audited the consolidated and separate financial statements for the year ended December 31, 2007, of PTT Public Company Limited and its subsidiaries in accordance with generally accepted auditing standards and expressed an unqualified opinion on those statements in the report dated February 22, 2008. The consolidated and separate balance sheets as at December 31, 2007, presented for comparative purposes, are parts of the

financial statements which the Office of the Auditor General of Thailand has audited and issued a report thereon as stated above. The Office of the Auditor General of Thailand has not performed any other auditing procedures subsequent to the date of that report except for the items as stated in the fifth paragraph.

As stated in Note 2.1, the Company has changed its accounting policy for business combinations in respect of the goodwill and negative goodwill arising from business combinations since January 1, 2008. The Company has complied with Thai Accounting Standard No.43 (revised 2007) “Business Combinations” by applying the prospective method, stopping amortization and testing for impairment of goodwill arising before the effective date of the standard and restating the carried forward of retained earnings balance for the negative goodwill arising before the effective date of the standard. In respect of these changes in accounting policy, the Office of the Auditor General of Thailand audited the related adjustments that were used in the preparation of the restated consolidated financial statements for the year ended December 31, 2007. The adjustments were appropriate and fairly adjusted in the consolidated financial statement.

The Office of the Auditor General of Thailand draws attention to Note 23.4 with regard to commitments and contingent liabilities. The Company has commitments relating to compliance with the judgement of the Supreme Administrative Court as stated in Note 22.

PTT PUBLIC COMPANY LIMITED AND SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS
FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED JUNE 30, 2008
(UNAUDITED, REVIEWED)
AND FOR THE YEAR ENDED DECEMBER 31, 2007 (AUDITED)

1. General Information

1.1 Purpose of the Interim Financial Statements

These interim financial statements are prepared in order to provide additional information other than that included in the most recent annual financial statements. Accordingly, these interim financial statements focus on the reporting of new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should; therefore, be read in conjunction with the most recent annual financial statements.

1.2 Preparation of the Interim Financial Statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 41 (revised 2007) “Interim Financial Reporting”. The content of the interim financial statements comprises the balance sheets, statements of income, changes in shareholders’ equity and cash flows, as presented in the most recent annual financial statements, together with selected significant explanatory notes.

1.3 Basis of Preparation

PTT Public Company Limited (“the Company”) and its subsidiaries are collectively referred to as “the Group”.

These consolidated financial statements have been prepared under the same basis as the consolidated financial statements for the year ended December 31, 2007. There has been no change in the structure of subsidiaries, jointly controlled entities and associates during the period.

1.4 Summary of Significant Accounting Policies

The Company has prepared these interim financial statements based on the same accounting policies and computation methods as applied in the financial statements for the year ended December 31, 2007 which were prepared in accordance with generally accepted accounting principles with the exception of the matter noted in Note 2.

1. General Information (Continued)

1.5 Amendments to Accounting Standards effective in 2008.

The revised accounting standards announced by the Federation of Accounting Professions (FAP) are effective for accounting periods beginning on or after January 1, 2008. The details are as follows:

Thai Accounting Standard No.25 (revised 2007)	Cash Flow Statements
Thai Accounting Standard No.29 (revised 2007)	Leases
Thai Accounting Standard No.31 (revised 2007)	Inventories
Thai Accounting Standard No.33 (revised 2007)	Borrowing Costs
Thai Accounting Standard No.35 (revised 2007)	Presentation of Financial Statements
Thai Accounting Standard No.39 (revised 2007)	Accounting Policies, Changes in Accounting Estimates and Errors
Thai Accounting Standard No.41 (revised 2007)	Interim Financial Reporting
Thai Accounting Standard No.43 (revised 2007)	Business Combinations
Thai Accounting Standard No.49 (revised 2007)	Construction Contracts
Thai Accounting Standard No.51	Intangible Assets

Compliance with these revised accounting standards does not have significant effect on the consolidated and the separate financial statements except as discussed in Note 2.1.

2. Accounting Changes

2.1 Changes in Accounting Policies

The Company has chosen to apply Thai Accounting Standard No.43 (revised 2007) “Business Combinations” that is effective for accounting periods beginning on or after January 1, 2008. Details are as follows:

Goodwill

In accordance with this standard, the Company is not allowed to amortize goodwill arising from business combination. A test for impairment is carried out at least once a year or when there is a factor indicating that an investment might be impaired. In case that the carrying amount exceeds its recoverable amount, impairment loss is recognized in statement of income. In addition, goodwill is presented at cost less accumulated impairment losses.

The Company has adopted this standard since January 1, 2008. For goodwill recognized prior to that date, the Company applied a prospective method by not amortizing goodwill and testing for impairment instead. As a result, the carrying amount of goodwill as at January 1, 2008 was presented with the balance carried forward from December 31, 2007, amounting to Baht 12,432.05 million and was not amortized during this period. The contrary, amortization of this goodwill for the three-month and six-month periods ended June 30, 2008 were recognized amounting to Baht 418.96 million and Baht 837.64 million respectively in the consolidated financial statements. Thus, management considered that there was no impairment of this goodwill as at June 30, 2008.

Negative Goodwill

In accordance with this standard, the Company, a buyer, must assess the seller’s identification and measurement of assets and liabilities and identifiable contingent liabilities including the exceed reassessment of carrying value in business combination, when buyer’s equity net fair value of the cost at acquisition date, the differences will be recognized as revenue in statements of income.

The Company has adopted this standard since January 1, 2008, with the prospective requirements. The carried forward of retained earnings as at January 1, 2008, amounting to Baht 5,344.81 Baht were adjusted.

However, these adjustments in goodwill and negative goodwill did not affect the separate financial statements.

2. Accounting Changes

2.2 Correction of Accounting Errors

In 2007, the Company has complied with the judgment of the Supreme Administrative Court (the Court) by separating the assets to the Ministry of Finance. However, the Company still has the right to use these assets.

The Company made corrections to the accounting errors in the previous year's financial statements, by cancelling the accounting for assets separation and recognizing the right to use assets as intangible asset, leading to a difference between depreciation expenses of assets and amortization expenses of the right. The Company accounted for this change by retrospectively adjusted the financial statements for the three-month and six-month periods ended June 30, 2008 that was presented for comparative purposes. The effect of this on the statement of income in the consolidated and the separate financial statements was the same in terms of amounts. The details are as follows:

Unit: Million Baht

Statement of Income for the three-month period ended June 30, 2007

Increase in cost of sales and services	10.61
Decrease in selling and administrative expenses	0.72

15. Earnings per Share

Basic earnings per share is calculated by dividing net income attributable to ordinary shareholders by the weighted average number of ordinary shares which are held by third parties during the period.

For the calculation of diluted earnings per share, the Company assumes that warrants of the Group given to directors, management and employees that can be exercised are converted to ordinary shares. The exercise of these warrants resulted in net income of the Group recognized in the Company's financial statements, adjusted by decreases in shareholding proportion. The number of diluted shares was calculated by using a market price (an average market price of the Company's ordinary shares during the period) and exercise prices. This calculation is prepared to determine the number of ordinary shares to be added to ordinary shares held by third parties for the calculation of diluted earnings per share.

Basic earnings per share and diluted earnings per share in the consolidated financial statements for the three-month periods ended June 30, 2008 and 2007 are calculated as follows:
